INTRODUCTION

At FXB, we are dedicated to building client relationships through partnerships where mutual respect for trust and integrity lead to long-term engagements over multiple projects. My work ethic and eagerness for knowledge will help to lead the way for growth and expansion within our industry.

EXPERIENCE

Mechanical Engineer, E.I.T. | FXB Engineering

February 2015 to present

Responsible for the engineering and design of mechanical systems on a wide variety of projects. Perform constructability reviews and coordination with other engineering disciplines in a team setting.

Intern | Sikorsky Global Helicopters (contract through TSA)

June 2014 - October 2014

Revised materials and processes specifications. Creation of Engineering Instruction documents. Incorporated engineering changes to existing drawings

Intern | Aker Philadelphia Shipyard

September 2012 - March 2013

Assisted engineers with daily operations at the shipyard facility regarding the onsite construction of an oil tanker. Assisted the Testing and Commissioning department with making sure that various components of the vessel were ready to be put into service. Created drawings corresponding to tank boundaries for weld quality testing. Distributed engineering work packages to the shop floor.

PROJECT EXPERIENCE

Iron Hill Brewery (Various Locations)
Michaels/Ross/Pet Smart (Various Locations)
Raymour and Flanigan (Various Locations)
ShopRite (Various Locations)
Transit Wireless (Various Locations)
